**Summary of reasons
for classification:**

The CD-ROM entitled *Hot For Cocks* is classified as:
Objectionable.

This classification is because the publication promotes and supports the use of urine in association with sexual conduct. The publication depicts sexual activity involving urine. Given that this behaviour is presented within material designed for the sexual arousal of adults, the publication affirms the behaviour involving urine as being arousing and part of normal sexual activity.

The Classification Office has considered the effects of the New Zealand Bill of Rights Act 1990 on the application of the classification criteria. The classification of this publication interferes with the freedom of expression, but this is an outcome that is consistent with Parliament's intention that publications falling under s3(2) are deemed to be objectionable. The classification is also a reasonable limitation on the freedom of expression that reflects the concern of a free and democratic society to limit the availability of publications that promote and support the use of urine in association with sexual conduct.
